

# Pediatric Solutions

## Beautiful Kids SA

Bioactive Self-Adhesive Nano-Hybrid Flowable

**Anti-Bacterial Protection**

**Prevents Secondary Decay\***

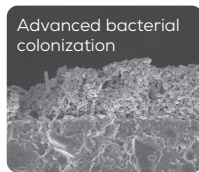

**Acid Neutralization**

**Faster, Easier & More Profitable**

Minimal bacterial colonization  
Bioactive Giomer Technology\*\*

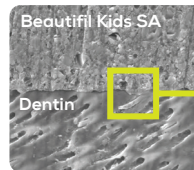

Advanced bacterial colonization  
Conventional Composites

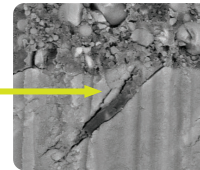

Shukan C. Kanuga, DDS

**Resin Tag Infiltration**

Beautiful Kids SA  
Dentin

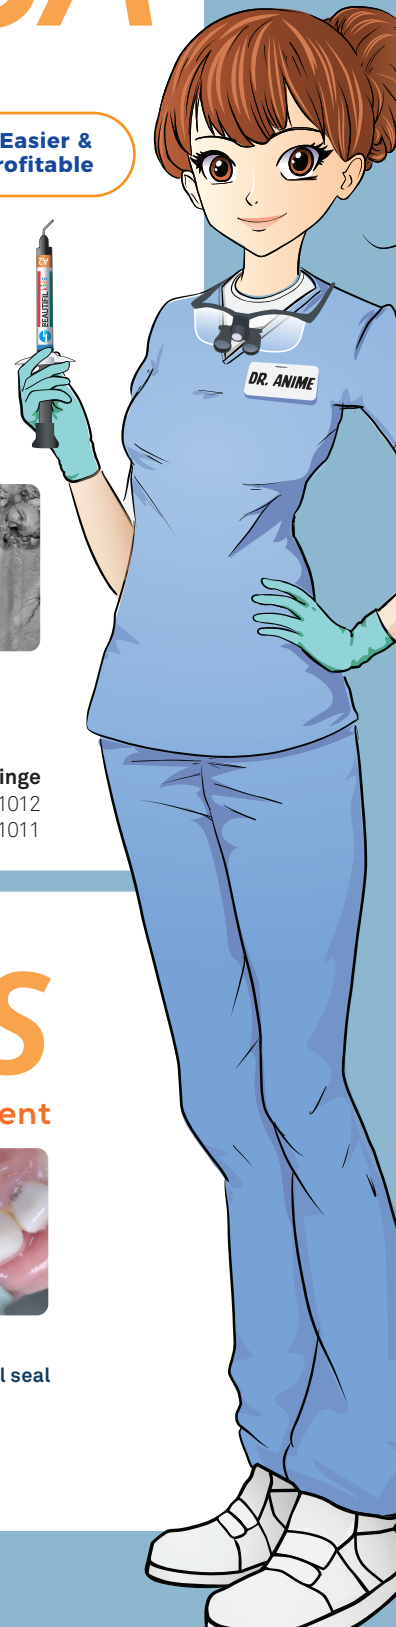

### FAST, EASY & RELIABLE PRRS

- > Eliminates the technique sensitive bonding step
- > Ideal handling for precision placement
- > Giomer Technology is clinically proven to inhibit plaque, neutralize acid, and greatly reduce secondary decay\*
- > Indicated for PRR and small Class I
- > Great for restless pediatric patients

**Beautiful Kids SA**  
2.2g syringe

**Shade**  
Primary (B1)  Y1012  
Permanent (A2)  Y1011

**CX-Plus 50 Capsules**  
Item No. 3277

**CX-Plus Liquid/Powder Kit**  
Item No. 1166

## CX-Plus

Glass Ionomer Luting Cement

Fred Margolis, DDS

- > Chemically bonds to dentin and enamel for excellent marginal seal
- > High levels of fluoride release and excellent radiopacity
- > Capsules or Powder & Liquid delivery systems
- > Value priced compared to major competitors

# BeautiSealant

No-Etch Fluoride Releasing Pit and Fissure Sealant

**Anti-Bacterial Protection**

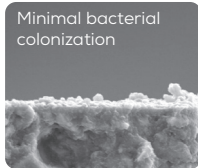

**Prevents Secondary Decay\***

**Acid Neutralization**

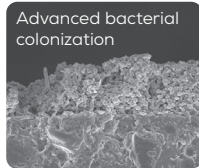

**Faster, Easier & More Profitable**

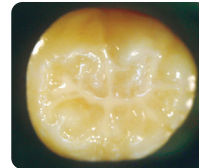

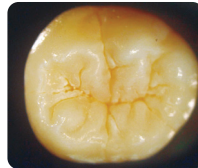

Minimal bacterial colonization

**Bioactive Gomer Technology\*\***

Advanced bacterial colonization

**Conventional Sealants**

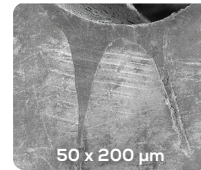

Dr. Satoshi Fukumoto, Tohoku University, Japan

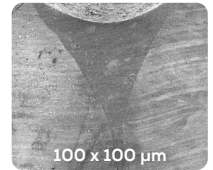

**BeautiSealant System**  
Item No. 1798

**Deep Penetration into Fissures**

50 x 200  $\mu$ m

100 x 100  $\mu$ m

- > No acid etching, saving time and money!
- > Superior bond strength for long-term durability
- > Gomer Technology is clinically proven to inhibit plaque, neutralize acid, and greatly reduce secondary decay\*
- > BPA- and HEMA-free chemistry

# OneGloss PS

Single Step Finishing and Polishing Solution

- > Fast and easy one-step polishing of composite restorations
- > Firm pressure removes composite and soft pressure polishes to a "satin finish"
- > Individually wrapped and disposable to prevent cross-contamination
- > Available in three shapes for ease of use
- > Value priced compared to major competitors

**OneGloss PS Assort. Kit**

Item No. 0175

**OneGloss PS Cup (50)**

Item No. 0176

**OneGloss PS Midi-Pt. (50)**

Item No. 0177

**OneGloss PS IC (50)**

Item No. 0178

BIOACTIVE.  
GOMER TECHNOLOGY.  
THE BETTER CHOICE.
